Sing a Song of Sixpence

EASTER EGG.

Sing a song of twenty cents,
And a tin of Melrose Paint
With years of satisfaction
And never one complaint.
When the tin is opened
Our praises you will sing;
We've all the lovely colorings
To fascinate a king.
You may sit within your garden,
Counting up your money,
'Mid the perfume of the roses,
While the bees collect the honey.
'Twill not give the satisfaction
To the eye or dainty nose,
As a tin of lovely coloring
With the label of "Melrose."

All of which goes to prove the high standard of quality of Melrose's Liquid Paints—Pure Paint, free from offensive odor.

Fire Raging In Coal Mines

For Days Flames Have Been at Work in Tunnel at Frank.

Sometime Before Conflagration Can Be Extinguished and Work Proceed.

Frank, B. C., April 26.—For days past a fire has been raging in the coal mines here, but only during the last few hours has it assumed a serious aspect. It is supposed to have started from an open miner's lamp a mile from the mouth of the tunnel, and so far as can be ascertained, has extended all over the works. An effort is being made to close the air passages and thus smother the fire, but this is rendered difficult by the smoke and heat, which are intense. Since the great disaster of two years ago immense sums of money have been spent in re-erecting the mines, but this has all gone up in smoke during the last few days. All this work will need to be done over again when the fire has been extinguished, but at present it looks as though this would be at some distant date.

It is not known yet if any lives are lost, but it is feared that some men have perished in the flames, which came very unexpectedly from the heart of the mine, leaving but little time for imprisoned miners to escape.

It appears that the greatest danger lies in the as yet unsettled question as to whether the fire worked its way up the chutes into the rooms of broken coal overhead. If that proves to be the case it will doubtless be some time before the fire can be entirely extinguished, but those in a position to know express the belief that the fire has not reached the "go," and if this proves true it will mean nothing more serious than a re-erecting of the entry the distance burned.

Worst Phase of Situation
appears to be that the fire will necessitate the closing of the mine for some time, while re-erecting is in progress, thus throwing the large force of men out of work.

Territorial Coal Mine Inspector F. B. Smith has been notified. The president of the company, H. L. Frank, has also been sent for.

S. W. Gobo, formerly manager of the company, who was let out by the directors a few weeks ago, left Frank last Saturday for Montana, and Superintendent George Broome has since been in charge of the affairs of the company.

When linen looks like cotton after washing that is the result of poor soap.

Sunlight Soap

is a pure, scientifically made soap, which washes linens perfectly white without the least discoloration or injury to the fabric. Equally good with hard or soft water. Buy Sunlight. Your money refunded if you find cause for complaint.

Fifteen Battleships Worse Than Useless and Defective Big Guns.

London, April 27.—The Daily Graphic this morning commences a series of articles dealing in question the duration of the armament of a modern British fleet in a manner that, the facts given being substantiated, is likely to cause a great sensation.

The writer alleges that 15 battleships unfit for action have been discovered and that the 12-inch guns constituting the main armament of these vessels are incapable of firing 50 full charges.

The latest Woolwich pattern six inch gun has also failed under experiment, the defects naturally arising as to the endurance of the armament of the whole of the modern fleet.

The article states facts unfortunately beyond dispute and points out that the present time is the time for action and not for blarney.

The facts came to light through developments of weakness in new long range guns under experiment and the simultaneous failure of the 12-inch guns in the bursting of shells in seven out of sixteen big British made guns on board the battleships. The writer points out further that Great Britain is the only power that has adopted the manufacture of wire wound guns.

WEDDING BELLS AT EASTERTIDE

Several Matrimonial Events in Which Local Couples Were Principals.

At Christ Church Cathedral yesterday afternoon at 3:30 o'clock Rev. Canon Beaulieu, assisted by His Lordship the Bishop of Columbia and Rev. W. Baugh Allen, in the presence of many friends of the contracting parties, joined in the holy bonds of matrimony two popular young Victorians—

Mr. Bernard Goodwin Goward and Miss Mary Beal, daughter of J. Beal, Esq., of Cadboro Bay. The bride was handsomely attired in a costume of white silk and was attended by the Messrs. Gibson, Develyn and Cardew in the capacity of bridesmaids. The groom was supported by Mr. E. O. S. Scholefield. A reception, attended by very many friends, was afterwards held at the residence of the bride's father, Cadboro Bay.

A very pretty and picturesque wedding ceremony took place at St. Mary's church, Saanichton, yesterday afternoon, when David Spence Mowat, of this city, was united in the holy bonds of matrimony to Ada J. Martindale, second daughter of Mrs. E. Martindale. The church had been very prettily decorated for the occasion by friends of the happy couple, and a goodly gathering of friends and acquaintances of the pair were on hand to witness an event which had been looked forward to with pleasant anticipations. Rev. Mr. Wimberly tied the nuptial knot and Mrs. Wimberly officiated at the organ. The bride, who was attired in a lovely hand-made costume of blue silk voile, trimmed with lace, was given away by her brother, Mr. John Martindale. She wore orange blossoms in her corsage and carried a handsome bouquet of white carnations. Miss Marion Cane and Miss Elena Martindale were the bridesmaids, while the best man was Mr. Ernest Bradley. On the conclusion of the interesting ceremony and congratulations having been exchanged, the party adjourned to the residence of the bride's mother, where a reception was held, and a sumptuous repast enjoyed. The newly-wedded pair were the recipients of a great number of very valuable gifts, numbered amongst which were pieces of fine linen, city lodges with which the groom is prominently identified—the Oddfellows and the Knights of Pythias. Mr. and Mrs. Mowat have taken up their residence at 128 Blanchard avenue.

Few events in the past few years of Nanaimo society have attracted so much attention as the marriage which occurred yesterday afternoon of Mr. Walter Thomson, eldest son of Mr. and Mrs. J. Thomson—Mr. Thomson being government agent at Ladysmith—to Miss Mable Priestley. Miss Priestley is a daughter of Mr. and Mrs. J. W. Priestley, and is a charming young lady very popular among the society people of the "Coast City." The bride, who was fully and richly attired, took place at St. Paul's church, which was beautifully decorated with flowers and foliage for the occasion. Long before the bride arrived the church was filled with the friends of the young couple, who witnessed the Easter wedding. The bride was becomingly gowned in a smart traveling costume of light grey tweed, trimmed with fancy military braid, white broadcloth and gold and silver buttons, the toilettes completed with a large white silk picture hat, trimmed with silk chiffon and silk braid, Duchesse ribbon and a large white plume; she carried a beautiful bouquet of white roses. The maid of honor, Miss Lena Mowat, sister of the bride, was charmingly attired in pale green with large picture hat to match and carried a large showed bouquet of cream roses and pink carnations. Mr. Wilfred Akenhead performed the duties of the strains of Mendelssohn's Wedding March, played by the church organist, Mr. C. W. Pawlett. From there the happy couple and relatives were driven to the E. & N. station, where they were greeted with effusive congratulations and good wishes, mingled with a deluge of rice, hosts of friends having assembled to bid them bon voyage. The honeymoon will be spent in Seattle and Tacoma, returning via Vancouver. Both young people are very prominent in social and musical circles, the bride especially being prominently connected with several local musical organizations of the city, and both being time-honored members of St. Paul's church choir. Mr. Thomson held the captaincy of the church lads' brigade up to the time of his removal to Ladysmith. Mr. and Mrs. Thomson will reside at Ladysmith and will be at home after May 28.

Word has been received by cable by Victoria friends of the marriage in England yesterday of Miss Marie Wythe of this city and Mr. Hugh Spence Clephan of Tyne-mouth, England. The wedding took place in Tyne-mouth, where the newly-wedded pair will make their home, and where Mrs. Clephan went from here on a visit to relatives a month or six weeks ago.

At the residence of the bride's father, 42 Pandora avenue, yesterday evening, John J. Galbraith, of Messrs. Weller Bros.' establishment, was united in marriage to Miss Ella Louise Little, the ceremony being performed by Rev. J. F. Vichert.

FRUIT IS NATURE'S LAXATIVE.
Fruit contains certain principles which act like a charm on the liver—and keep the whole system well and strong. But these principles in the fruit juices are too weak to have any marked effect on the internal organs. The value of

Fruit a-tives
or Fruit Liver Tablets

lies in the secret process by which they are made. The fruit juices are so combined that they have an entirely different effect from fresh fruit. The delicate action of fruit greatly intensified. They have a marked effect on the liver—toning it up—making it active. "Fruit a-tives" are, without doubt, the only complete cure for all Stomach, Liver and Kidney Troubles.

See a box. At all druggists.
FRUITATIVES, LIMITED, OTTAWA.

GALLIHER'S ERROR.
Festive Parliamentarian and Friends Do New York With Results.

New York, April 26.—Grant Morden, a wealthy furniture dealer of Montreal; William Galliher, who says he is a member of the Dominion parliament, and James McDonald, a railroad contractor of Ottawa, failed to take the Adirondack and Montreal express at the Grand Central station. They were in good time, but owing to a mistake in entering a sleeping car for which they did not have tickets, the nervousness of the women passengers, an altercation with a porter and a general argument with the station master, the night superintendent of Pullman service and five policemen, they were later released on bail furnished by Manager Hilliard of the Waldorf Astoria hotel.

SALVATION ARMY EMIGRANTS.
Thousand Hardy Britishers Set Sail for Canada.

Liverpool, April 26.—English emigrants to the number of 1,045, sailed for Canada this evening on board the Dominion liner Vancouver, with the Salvation Army flag at the masthead. The emigrants were gathered by Salvation Army agencies, and the majority are workmen, all paying passage and many are supplied with sufficient capital to make a start in the new world.

Prior to the sailing the lord mayor of Liverpool, together with Rider Haggard, who had just arrived from America, and the Commandant, Tucker, and Mrs. Bramwell Booth, addressed the emigrants from the bridge. The lord mayor regretted that England was sending out her best brawn and muscle to work in a new country and at the same time opening the doors for less desirable immigrants.

Mr. Haggard, who said that Canada and the United States were countries of great assets, paid a high tribute to Theodore Roosevelt, the "noble-hearted" single-minded president of the republic. He said success awaited all who were prepared to work.

FUNERAL OF ROBT. CUNNINGHAM
Impressive Services at Essington at Interment of Coast Pioneer.

Port Essington, April 15.—The 13th of April was a sad day for Port Essington. When the steamer Princess May, with flags flying at half-mast, steamed up the Skeena and swung to anchor in the harbor, she brought the remains of Mr. Robert Cunningham, the pioneer of the Skeena and founder of Port Essington.

His friends were sadly fulfilling his last request that he be buried near the scene of his former activities. When the inhabitants of the town, who were toddlers in far away hands he had pushed his way north until he arrived at the forks of the Skeena where it is joined by the Ox-tail river, and there he pitched his tent. This place had been the scene of his active business life.

Many a tale would be told of hardship and adventure in the early days. He spoke the Indian languages fluently, as well as Chinook, and was perhaps the most influential man among the northern tribes, with the exception of "Father Duncan, the famous missionary."

He was a celebrated fur buyer, and rivalled the agents of the Hudson's Bay Company as a judge of good furs and a keen and skilful barterer in them.

On the evening of April 13 a service was held in the little English church at Port Essington. Seldom is seen a more cosmopolitan congregation than assembled to do honor to the departed. The little building was crowded to suffocation by white people, Indians, Japanese, Chinese, and Rev. Mr. Lallyman, the rector, read the memorial service of the Anglican church.

The next morning the tug Chieftain, accompanied by the Florence, left in funeral procession for Metlakahla, sailing at "Cassidy, North Pacific and Inverness for the deceased, who was wished to attend the funeral. At Metlakahla the procession was joined by the tug Vesta of Port Simpson with Mr. George Rudge and a party from that place.

The flotilla then crossed to the Indian cemetery on Digby Island. After the large party had been ferried ashore a funeral procession was formed. The people of the diocese and three clergymen, in full robes, led the way, closely followed by the Indian band playing the Dead March in Saul. The coffin, borne by employees of Mr. Cunningham's several institutions, was covered by the Union Jack and numerous floral offerings. Next followed the chief mourners, consisting of the son, widow and brother of the deceased. Then came the large concourse of friends in solemn procession, the gay hues of the Siwash dress intermingling with the sombre robes worn by the whites, and the eccentric fashions of Oriental garb. The bishop, aided by the pioneer missionaries, Messrs. Hogan, Lallyman and Keen, read the services at the grave.

The cemetery is situated on a romantic spot on a point of land which juts out from Digby Island, opposite the large cove of the Skeena. The little bay meets the eye looking seaward, while the opposite view overlooks the region of Tuck's Inlet.

AN ATTACK OF CROUP WARDED OFF.

"Our little girl, two and one-half years old, woke up coughing with the croup one evening recently. We happened to have some of Chamberlain's Cough Remedy in hand and gave her one or two drops. She went back to sleep and woke up next morning without a trace of cold. It is certainly a great medicine," says A. J. Luginbill, editor of Star, Villa Rica, Ga. An attack of croup can prove as fatal as the late croup of the child, and as the croup cough appears, it has been in use for many years and has never been known to fail. It contains no opium or other harmful drug and may be given to the smallest child with perfect confidence. For sale by all druggists.

The Bad Cold of To-day May Be Pneumonia To-morrow.

The Sore Throat or Tickling Cough that, to the careless, seems but a temporary and trivial annoyance, may develop into Bronchitis.

Every hour delayed in curing a cold is dangerous.

Dr. Wood's Norway Pine Syrup

contains all the lung-healing virtues of the pine tree, and is a sure cure for Coughs, Colds, and all throat and lung troubles. Miss Bertha E. Craig, Almont, Ont., says:—"Last fall, for over two months, I had a very bad cold, and although I tried several remedies, it seemed as if I was getting worse instead of better. While looking over the Burdock Blood Bitters Almanac, I read about Dr. Wood's Norway Pine Syrup, and decided to give it a trial. When I had used about half a bottle, I found it was doing me good, so kept on until I had taken two bottles. It is the best cure for a cold I ever heard of."

Price 25 cents per Bottle.

THE EQUITABLE RECEIVERSHIP.

Report That Suits Are to Be Pressed in Case.

New York, April 26.—It was reported in Wall street today that a plan had been formed to press the receivership proceedings against the Equitable Life Assurance Society in the federal courts. It was declared that Sullivan and Cromwell had been retained as managers of all the suits so far entered in every federal district of the United States.

Filth of Catarrh Is Disgusting

Cast This Awful Disease From Your System—Become Clean, Healthy and Well!

In the first place catarrh is inflammation. It causes a sickening discharge which sufferers must either swallow or spit out. If swallowed, this putrid matter ruins the stomach, upsets digestion, poisons the blood and causes a physical breakdown.

The effect of Catarrh is instant. It heats the inflamed surface and thereby stops the discharge. It goes at once to the source of the trouble and cures catarrh by quickly removing its cause.

Nose Was Stuffed Up.
Mr. L. Murphy, well-known in West Medford, Mass., writes: "Catarrh cured my nose, after a score of doctors failed. I used Catarrh and spit, my nose was continually stuffed up, and often I was sick at my stomach. Catarrh has removed every trace of catarrh from my system."

Catarrh Cured Quickly.
Miss Emma Peters, Highland Grove, N. S., writes: "I am more than pleased with the results from 'Catarrh.' It cured me of the worst kind of nose and throat catarrh. Other friends using Catarrh are greatly pleased with it and agree that it is the only sure remedy for catarrh they ever used."

You run no risk. If Catarrh fails your money will be cheerfully refunded. Complete outfit lasts two months and costs \$1.00; sample size 25c., at all dealers or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

THE NEW FRENCH REMEDY.

THERAPION No. 1
This successful and highly popular remedy, used in the Continental Hospitals by Kien, Kien, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, for it cures, in a few days, all the most serious diseases of the urinary tract, such as gonorrhea, cystitis, etc., and restores the system to its normal condition.

THERAPION No. 2
In a remarkably short time, in a few days, it removes all discharges from the urinary tract, suppurating infections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 3
For nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, etc. It possesses surprising power in restoring strength and vigor to the debilitated.

THERAPION
is the principal Chemist and Merchants throughout the world. Price England 2/6 & 4/6. In ordering, state which of the three numbers required, and observe above Trade Mark, which is a fac-simile of word 'THERAPION' in a red circle, and is surrounded by a wreath of laurel. THE EQUITABLE LIFE.

The litigious proceedings now under way in connection with the affairs of the Equitable Life will not be without benefit to the public, even if the temporary success of that company is for the time being threatened. One moral, so far as Canadians are concerned, is to patronize home companies over which they can exercise some measure of control. The San Francisco Argonaut expresses itself in regard to the situation as follows:

"The controversy has led to a widespread distrust of insurance companies, and has raised the question whether the funds of large companies are employed for purely speculative purposes, a contingency the very hint of which must necessarily cause apprehension in the great numbers of people who, painfully and with much self-denial, invest their money in insurance. In perhaps the majority of cases, insurance represents the entire savings of a frugal life. It is very evident that this condition is exceedingly unsatisfactory, and should, as a matter of fact, be rendered impossible. The chaos in the affairs of the Equitable will not have been in vain if some plan is discovered to prevent its repetition."

THE REAL CULPRITS.

The Toronto Star speculates upon the plight of Mr. Borden if the Laurier Government should be beaten on the Autonomy Bill. It discovers that he could not get a single Catholic to enter his Government or any man who represents a constituency having a large percentage of Catholics. This is precisely the argument set up by Hon. Mr. Fielding in his speech on the subject. That might, it true, be a practical view of the case to take in support of the Government's position—a sort of we-can't-help-ourselves policy—but it cannot be considered a logical argument in favor of interference with provincial rights in the Northwest. The Montreal Gazette, which has taken a conservative and middle course on the school question throughout, places the position in a proper light when it states that: "There are no worse mischief makers in Canada than the men who, in hope of making party gain, in connection with the creation of the new provinces in the West, say the Conservatives in Parliament are stirring up race and religious prejudices. Their charges are malicious and false. The amendment of Mr. Borden, which the majority of the Conservatives are supporting, has for its object to leave to the people of Alberta and Saskatchewan the establishment and regulation of their own school systems. If it should be adopted the new provinces would begin on July 1 next with the system now existing and with just as much probability of its being continued as there will be if the Government's proposals are adopted. The Conservative amendment does not raise a question of separate schools, or of race or creed, but a question of what powers it is wise to give to the new provinces. Men may differ from the Government on this without being either bigots or intolerant. The bigots and intolerant, the stirrers up of strife, the fomenters of creed and racial dislike, are the narrow-viewed mortals who are seeking to obscure the issue, to make it appear as something that it is not, and in the process are laying false charges against honorable opponents."

BACK TO THE LAND.

Nearly every writer on social economics for the past twenty-five years has dwelt upon the great evils incident to, and the possible dangers arising out of, the rush of the rural population to the great cities which become congested as a consequence. London, New York and Chicago are examples of this tendency. The poor of London, for instance, are so numerous and the opportunities for their employment so limited that their existence constitutes one of the gravest social problems of the day in Great Britain. There are said to be a million persons in the city of London constantly on the verge of starvation, the majority of whom, so far as our religious and moral systems are concerned, may be described as modern pagans. Such conditions have brought into existence many agencies for their improvement, but all the efforts so far exerted appear to be in effect like drops of water in the ocean. Perhaps the most comprehensive and effective movement is that taken by the Salvation Army, the system and methods of which get nearer the heart and sympathies of these people than any other yet devised.

Within the past few years the Salvation Army has undertaken to relieve in a measure the congested districts by organizing what is known as Salvation Army colonies, the object of which is to get the people back to the land from the impure and over-congested atmosphere to one of freedom, light and health. Several of these colonies have been planted in America with remarkable success, and now that the matter has governmental attention called to it, steps are being taken to carry out the plan on a more extensive basis.

As our readers are aware from telegraphic despatches in the newspapers, Mr. Roder Haggard, the well-known novelist, has been employed by the

When Sickness Comes

there's always a need for Armour's Extract of Beef. It keeps up vitality and prevents excessive loss of flesh and strength. It's rich beefy flavor makes beef tea that is as appetizing as it is delicious and stimulating.

Sold by all Grocers and Druggists.

ARMOUR LIMITED, TORONTO.

Beef packers and shippers for Canada.

Imperial Government to report upon America, and particularly upon the Northwest portions of Canada, as a field in which to continue this work. He has been in Canada for some weeks and is now on his way home to make his report, which, judging from the speeches he has made, will be entirely favorable to the scheme. While in Eastern Canada Mr. Haggard, along with Commandant Booth-Tucker of the Salvation Army, who were guests of the Canadian Club at Ottawa and Toronto, delivered most interesting addresses on the subject of his mission. It appears that the novelist has been a life-long student of the conditions which he is now endeavoring to relieve and is in warm sympathy with the movement which the Salvation Army has in hand.

At Ottawa, describing the situation in England, he said: "At the present moment in England, I believe, we have but one-seventh of our population living on the land. In the United States, if the figures given me are correct, matters are very little better. And so it is in other countries—everywhere the land dwellers heap themselves in the cities. And what happens to them when they go there? How many succeed? Not one in five, I say. The rest of them, for the most part, get nothing. As sickness strikes a man when he arises from his bed his place is gone. His children grow ill through crowding together in narrow court and insanitary rooms and become decimated by disease. Bad times come and the workmen are dismissed by the thousands from their employ. Gray hairs, at any rate come at last, and with gray hairs the notice to quit; and so they go down, and they go under and become part of that mass which is known as the submerged tenth—though I imagine there is a good deal more than a tenth. And there they are—miseries to themselves, useless to their country and a burden upon the town that has to support them."

Describing the results of his investigation, he gives one instance, as follows: "Now, that is what is going on in the great city of London. Let us look at the places like Fort Amity, where I saw the colony of the Salvation Army. As your President told you, I am not at liberty in any way to forecast my report; but I can say this—still that I went to the schools, as I did in other places, and saw the children. The parents of these Fort Amity children were taken from a great city, the city of Chicago, where mostly they were working as day laborers. They were working with nothing, in fact, most of them had to have their fares paid. They had no prospects, nothing earned, nothing to hope for. If we could get at the facts no doubt we should find they were in one or two rooms and not too well. I went and looked at those children. My daughter photographed them in the schools at Fort Amity. Never did you see a healthier, happier, more robust, more promising set of children in your life. And I wondered how these children would have looked had not the Salvation Army had the idea of starting this colony and had they been left to wander about in the streets of Chicago. And I wondered, these happy, contented faces, how made have been wanting but for the change made in the condition of these children."

The proposals to plant Salvation Army colonies, made up of the poor of London, in the Northwest has been severely criticized as an attempt to introduce into Canada the evils arising out of what is known as "the submerged class" in London, and this is pointed to as in line with the immigration, in large numbers, of Galicians, Doukhobors and other foreigners. The Salvation Army proposal must, however, be considered and judged by itself. The people who are proposed to be brought there are of the same race as ourselves. If having sunk lower than us, it is because of their environments, and man's status in society after all is the result of his environment. Once removed from the tainted atmosphere of London slums to the free, life-giving air of the prairies, with definite prospects and profitable employment in view, there can be little doubt of success.

British Columbia can always get plenty of attention from Eastern Canada when it comes in conflict with the commercial or political interests of the latter. That is amply demonstrated by the objections being raised to the tax on commercial travelers and the alien exclusion law. When British Columbia has a grievance against the Dominion Government on any score it is discreetly overlooked by the Eastern press and politicians.

Mr. Bourassa in Montreal talks about the rights of the Protestant minority in Quebec Province being liable to be attacked if the present agitation against the provisions of the Autonomy Bill is kept up. The rights of the minority and also of the majority in Quebec are provided for and protected by the British North America Act. So will the rights of the minority in the Northwest Territories, as soon as the new provinces are created. Mr. Bourassa is not satisfied to trust his co-religionists in the Northwest to the operations of the same law under which Quebec rights are made secure.

It is a mistake to suppose we are governed in this country by majorities. The passing of the Autonomy Bill at Ottawa will demonstrate that the minority rules.

Mr. Andrew Carnegie advises Judge Dunne, Mayor of Chicago, not to stop until every public utility is acquired which can be made the subject of private monopoly. As Mr. Carnegie has acquired so much of the world's goods that he finds difficulty in giving it away, his advice may be accepted with the proverbial grain of salt.

It has been discovered, so a Consul-General informs his Government, that a tapeworm is the natural enemy of germs of consumption, and that, therefore, the two cannot exist together in the same body. This is comforting, but the remedy is all but as bad as the disease. Most men would just about as soon be afflicted with tuberculosis as with tapeworm.

Much will be made throughout the Dominion of the unopposed re-election of Mr. Oliver, the new Minister of the Interior, in Edmonton. This was a case in which the political dice were loaded. Mr. Oliver's constituency was the only one west of the Great Lakes where cabinet timber was available, in which a supporter of the Government could be elected. To claim it as a vindication of the Government's school policy is absurd.

The Dominion Government has lost no time in disallowing Acts of the British Columbia Legislature, the provisions of which are discriminatory against the Japanese. Three Acts in all have been disallowed. There is really very little to say in connection with the matter in addition to what has already been said in the Colonist on the subject. In the present mood of the Legislature and the present inclination of the Ottawa Government the situation threatens to develop into a see-saw game.

Any port for safety will do in a storm. So thinks the Winnipeg Free Press. It accuses the Roblin Government of permitting in Manitoba the existence, "under the guise of Public Schools, of scores of schools, which in their nature are much more objectionable to the believer in unsectarian schools than are the minority schools to be formed in the Territories." This is particularly rich when we consider that the arrangement under which religion is taught in Manitoba schools was the result of the famous settlement made by Sir Wilfrid Laurier with the Greenway Government, which has simply been allowed to continue.

LETTERS TO THE EDITOR.

[The Editor does not hold himself responsible for views expressed by correspondents.]

THE REGATTA.

Sir—I think a great mistake was made last evening, when a few gentlemen took it upon themselves to decide that the regatta be held in Victoria. The street railway company has been making a special effort to complete its line to the gorge before the date of the regatta, and yet they refused to say that the citizens shall not take advantage of the line to view the races.

I venture to say that a canvass of the crowd would show a large majority in favor of holding the regatta at the Gorge. W. F. BEST.

POLICE INVESTIGATION.

Sir—In your report of the result of the police commissioners' inquiry into my complaint of the conduct of Constable No. 6, I am omitted to state that His Worship the Mayor said that he was not to be understood as concurring in the decision. In justice to His Worship and to myself you should make this correction. You should also state that, before the Mayor sat on the inquiry, which was not until the second day, I was only informed by my counsel that prejudice against me appeared on the part of the other two commissioners, and that this was not denied by them. I openly charge Mr. Russell with showing obvious partiality and challenge him to show that one word even of my evidence was shaken in my cross-examination, and hereby express my readiness and ability to point to numerous contradictions in the evidence offered by the constable and his witnesses.

I wish to add that, judging from the part taken by His Worship, I am confident that a different decision would have been given, had he been able to have been present throughout the whole investigation, and I further wish to say that I am sure that all disinterested and impartial people who heard the case know perfectly well that nothing but the absolute truth was stated by me. FRED. B. HORSFALL.

Victoria, April 26.

THE SCHOOL TRUSTEE ELECTION.

Sir—Regarding the vacancy on the school board, I am pleased to see by Dr. Hall's letter that he endorses to a large extent my views. At the same time I am surprised to see the Doctor a candidate, as he stated to me before I announced my

BAD STOMACH.

MAKES BAD BLOOD.

You can't make sweet butter in a foul churn. Every farmer's wife knows this. Your stomach churns and digests the food you eat, and if foul, terpid or out of order your whole system suffers from blood poisoning. You will have foul breath, coated tongue, bad taste, poor appetite and a whole train of disagreeable symptoms. Dr. Pierce's Golden Medical Discovery, which is not a beverage composed of whisky or alcohol, being entirely free from intoxicants, is a great regulator and invigorator of the Stomach, Liver and Bowels.

"About a year ago I was ill with blood poisoning," writes Mrs. Evelyn Louis, of 29 Walter Street, Buffalo, N. Y. "I had what seemed to be a small cold sore on my lip. It was very angry in appearance and began to spread until it nearly covered my face. I was a frightful sight and could not go outside the house because of my appearance. I used a blood medicine which did not give me any relief. Then I began to take your Golden Medical Discovery. I was greatly benefited with the first bottle and after taking the second bottle was completely cured. The eruptions on my face disappeared and my blood was cleansed. My complexion is clear and fresh and I have felt better this year than I did for some time before. Dr. Pierce's Golden Medical Discovery is certainly a most remarkable medicine."

Don't accept a substitute for a medicine which performs such cures and which has a uniformly successful record of nearly forty years to its credit. It's an insult to your intelligence for a dealer to try by over-persuasion to palm off upon you an inferior article with no record to back it up. You know what you want; it is his business to meet that want.

\$50,000 GIVEN AWAY. In copies of Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at \$1.00 per copy. That year we shall give away 500,000 worth of these valuable books. This year we shall give away 500,000 worth of these valuable books. Will you share in this benefit? If so, send only 31 one-cent stamps and a copy of mailing only for book in self paper covers, or 10 stamps for book-bound edition. Address Dr. J. C. Pierce, Buffalo, N. Y.

Constipation although a little ill, begets big ones if neglected. Dr. Pierce's Peppermint cures constipation.

self in the field that he would have nothing to do with it, adding that he considered it ridiculous to have a contest, as the vacancy should be filled by acclamation. The Doctor has evidently changed his mind and is ready for the contest. The papers in referring to the contest speak of political influence and the part it is likely to play. Personally, in a contest of this character, I do not allow politics, society or church to play any part whatever; I am asking the suffrage of the electors that, if elected, I may do all in my power without fear or favor to bring about reforms which will aid in the education of the children and, if possible, to minimize the tax upon the ratepayers. I do not make this statement because I am at a disadvantage; in church and societies I would be on a par with the other candidates, while in politics I would have all the advantage.

Yesterday's Colonist gives me the credit

of promoting a Cocos Island expedition, thereby placing me on a par with such men as Lord FitzWilliam, Admiral Pulteney and other distinguished persons. The honor of promoting the expedition referred to is due to other people; I was a shareholder with about five hundred others, among whom were many of our most respected business and professional men. As for my connection with the medicine company, I am still identified with it, and hope to be until it has achieved the success it deserves. I thank the Colonist for the advertisement; but it is aside from the issue. I am out as a candidate for the school board vacancy, and trust to the ratepayers to place me at the head of the poll on Friday next.

There is nothing better for acute and chronic bronchitis.

THE MODERN POLITICIAN.

What manner of soul is this to whom high truth is but a plaything of a feverish hour. A dangling ladder to the ghost of power! Gone are the grandeur of the world's iron words. When kings were mighty, being made by swords. Now comes the transit age, the age of brass. When clove into the vacant empires pass, blinding the multitude with specious words. To them, faith, kinship, truth and verity, Man's sacred rights and every holiest thing. Are but the counters at a desperate play, flippant and reckless what the end may be. So that they glitter, each his little day. The little mimic of a vanished king. —Archibald Lampman.

THE WEST END GROCERY COMPANY

S. J. HEALD, Manager.

Once in a while a want, ad finds its task too hard to accomplish in one day. So that, sometimes, two insertions are better than one.

Rock Bay Bridge—At the meeting of the board of works of the city council this evening an important matter which will come up for discussion will be the question of constructing a new bridge at Rock Bay. Owing to the mayor's absence at Ottawa the matter had been left in abeyance, but now that he is returned an endeavor will be made to arrange for the commencement of the structure at an early date.

Carnegie Library—The Carnegie library building is now practically completed and it will shortly be turned over to the corporation by the contractor, George Snider. The question of arranging for its interior equipment and the providing of a stock of books, is a problem with which the city council will shortly have to grapple. There is room on the shelves of the new building for about 5,000 volumes, and as very few of the books at present in use in the city hall library are in shape to be transferred to the new building, an entirely new stock will have to be purchased.

Coast Mission—The missionary steamer Columbia, which was lately launched at Vancouver is expected here tomorrow and a special service of dedication will be held on Saturday afternoon at 3:30. The Columbia will be moored alongside of the old custom house wharf, by the kind permission of Capt. Gaudin. The choir of the city churches have been invited to assist, and the service will be conducted by the Bishop and clergy, when it is hoped there will be a large attendance. From 4 to 6 Rev. J. A. Auld who is in charge of the boat, will gladly welcome all visitors who are interested in the cause, the object of which is to minister to the men in the logging camps on the northeast part of Vancouver Island.

Self Denial Effort—H. P. Nelson, adjutant, and his associate officers of the Salvation Army, are issuing circular letters to leading citizens and business men of Victoria, directing their attention to the approach of the Army's annual campaign of "self-denial," which is recognized by the Army and a great number of friends and sympathizers throughout the world. The proceeds of this voluntary self-sacrifice have become a chief means of support in the Army's far-reaching missionary enterprises, as well as its varied social operations. This work has not only to be maintained, but is being extended continually. There are great demands still being made upon the Army, and the devoted opportunities are presented to it if it had the men and the money.

Street Railwaymen Entertain—The entertainment and dance to be given under the auspices of Local Division, No. 109, of the Street Railway Employees' Association, will take place this evening in the large hall on the lower floor of the A. O. U. W. hall, Yates street. There is no doubt that the entertainment will be one of the season, and it is safe to predict that all who are fortunate enough to be in attendance will enjoy themselves to some extent, to say the least, as everything possible has been done to insure success. The invitations have all been disposed of, but friends will be admitted by securing passes, which may be had from employees of the company. Doors will open to admit guests at 7 p. m., and the programme will commence at 8 p. m. sharp. A special car service will be provided for the occasion.

A Canine Nuisance—Residents in the vicinity of the city pound have been giving attention to the remedy which they will receive the sympathy of the public generally. The acting poundkeeper, D. Green, is particularly energetic in impounding mongrel dogs and all other canines which are useless, and the sequence is that the pound is kept unusually full most of the time—in fact, it is said that Mr. Green has broken all records in the big hauls which he has lately made. This is very good from the standpoint of the poundkeeper, but it is serious for residents in the vicinity. The imprisoned animals keep up a dreadful howling, making night hideous with their yelps and barks, and it is impossible for those who live within earshot to get any sleep. Complaints have gone forward to the city council, and it is hoped that the nuisance will be abated at once—but how is the burning question.

Victoria Clearing House—The total clearings of the week ending April 25 at the Victoria Clearing House amounted to \$389,115.

I. O. O. F.—The general committee of this order met last evening for the purpose of completing arrangements for their anniversary social tomorrow evening, and also of the church parade next Sunday to the Centennial Methodist church.

W. C. T. U. Meeting—A special parlor meeting of the W. C. T. U. is to be held this afternoon at 3 o'clock at the residence of Mrs. Clark, 88 Discovery street. It is to be hoped that the attendance will be large.

Cement Works Busy—A large force of men is engaged at the new cement works at Saanich Arm—fifty or sixty white men. Many of the latter live in the city, going to work on the V. & S. railway. To keep up with the orders ahead, the works have been running night and day of late. The machinery is giving satisfaction. Alongside the wharf is the barge Alexander taking over 5,000 barrels of cement in sacks for the Victoria and Vancouver markets. This is the first vessel to load at the works.

E. A. Harris & Co.
35 Fort Street.

This is the last week for reduced rates at the Skene Lowe Studio. Do not miss it.

...STUDY...

Watch repairing cannot be executed mechanically without thought; to be successful in this line you must understand the theory of a watch. Then many of the seemingly difficult problems become simple. Did it ever occur to you that the man who was experimenting on your watch, trying first one thing, and then another, in his efforts to make it run, was doing your timepiece no good? We have studied watch work in its entirety; when in trouble come to us.

The Manufacturers—An important meeting of the newly-organized Manufacturers' Association will be held this evening in the Board of Trade rooms. It is especially requested that all the members be present, as besides the election of officers other business of vital interest is to be transacted.

Annual Meeting—The annual general meeting of the shareholders of the Mount Sicker and Brenton Mines, Limited, will be held in Sir William Wallace hall, Broad street, on Tuesday afternoon, May 9, for the election of officers and the transaction of general business of the company.

Condemned Buildings—Tomorrow evening the City Council will confer with the owners and agents of the various condemned buildings which have outlived their usefulness and only await final decision of the council before being destroyed. The owners and agents will be asked to show cause why this action should not be taken.

Address Wanted—Miss Viola A. Storey, of 204 West 4th street, Portland, Oregon, is desirous of obtaining the address of a relative by the name of John Storey. He is about 40 years of age, of light complexion, and five feet eight inches in height. He has always been associated with street grading, especially in the advertising department.

Court House Jottings—The Full court will sit again tomorrow, when an application will be made for leave to appeal to the Privy Council in the Centre Star vs. the Rossland Kootenay Mining Co. On Monday next the County court will sit with a long list of cases. Among them is one for damages against J. Springer in connection with the Spring Ridge gravel pits. The jurors have been selected for the next Assize court, which sits on May 10.

Michigan Street—Residents of Michigan street are agitating up to the necessity of lodging a vigorous kick with the civic authorities in order to get a measure of justice done that section. Those living in the section between Menzies and Oswego streets want a better water supply, the street graded and an improved electric light service. All of these are badly needed requirements. Those living further east on the same thoroughfare are demanding better sidewalks, the wooden ones now in position being in very bad shape.

Boundary Survey.—Mr. White-Fraser, of this city, who, as announced yesterday's Colonist, has been appointed by the federal government to take charge of the Alaskan boundary survey party which will be in the field this summer, is making arrangements to enter upon his duties as soon after May 1 as possible. His party will be composed of the following: E. Boyce, Ladysmith; M. H. White-Fraser and A. H. Morley, Victoria; Parnell Keary, F. S. Hughes and E. H. Johnson, New Westminster; Alex. Lambie, Vancouver.

More Sprinklers Needed—That the city council will shortly have to provide more street sprinkling facilities is the opinion of a number of the aldermen. It has just been decided to extend the watering cart service to upper Pandora and upper Yates streets, and this will mean the withdrawal of one of the carts from the business section of the city. As on windy days the dust nuisance is a very serious problem to grapple with in the downtown district, an additional cart would appear to be the only way in which to meet the demands of the situation.

The Cowichan Show—In spite of the Dominion exposition at New Westminster this year, the Cowichan Agricultural Association has decided to hold its annual exhibition on the usual date at Duncan's, K. Chester, of Duncan's, who is now in the city, a guest at the Victoria hotel, says that in order to reduce the expenses of the event, diplomas will be issued instead of cash and other rewards, but of course, there will be special prizes secured through subscriptions. The management anticipates a good measure of support from the merchants and citizens of this city, owing to the fact that the local exhibition has been cancelled.

Preparing Plans—Architect Thomas Hooper is at work preparing plans for the new Old Men's Home building, which is to be erected at the newly-acquired site opposite the Willows, and also for the bathing pavilion to be built to the order of the Tourist Association at the cosy little bay on Dallas road, at the foot of St. Lawrence street. The Old Men's Home building will be planned to accommodate about 100 inmates, and though a pleasing style of architecture will be followed, the chief object will be to provide a homelike structure with every comfort and convenience known to modern public institutions of similar character.

Pioneer Society—At the regular monthly meeting of the B. C. Pioneer Society, to be held Wednesday evening next in the hall of the organization, Broad street, further consideration will be given to the question of opening the society to membership of those who came to the province at a period later than the date of its formation. It will be remembered that at the last monthly meeting a resolution was passed to amend the constitution making eligible for membership all those who have resided in the province 25 years. As there was not the proper number of members present to make the action legal, it was decided to again discuss the question at the next monthly meeting. There seems no doubt that the suggested change will be finally made.

NEW YORK STOCKS.

New York, April 26.—Speculative sentiment in the stock market seems to be swayed at present almost entirely by the varying gossip regarding the relations between railway capitalists who control the Northwestern railroad systems. Today's rumors shifted to the side of prevailing harmony and a disposition to co-operate for mutual advantage. The slump in Northern Securities stocks had been the cause of these stories and during the week of this week and last opinion has veered to the other extreme.

The downward plunge in the price of Northern Securities was a large part due to the fact that with the release of the stocks of its constituent companies they would be freely liquidated on account of the high level to which the annual quotations had been raised while the holdings were tied up in the Northern Securities Company.

This apprehension was kept alive by the violent declines in quotations for these stocks, but there was an awakening today to the fact that offerings on which these declines had been almost purely nominal. A rumor was set afloat that an agreement had been reached as to the disposition to be made of Northern Pacific. It was added in addition that the controlling interest in Union Pacific had averted a danger which seemed to threaten the control of their property. There was considerable outstanding short interest which was alarmed by these developments. The effect was clearly manifest in the movements in Northern Securities, Great Northern preferred, Northern Pacific, Union Pacific, St. Paul, Northwestern, Illinois Central, and New York Central, all of which have been on a rising tide more or less in the speculation based on this topic. More explicit declarations were made also to long rumored lease by a divided board of directors of Louisville and Nashville to Atlantic Coast lines had been definitely determined upon.

Money Markets.—Prime mercantile paper 4 to 4 1/2 per cent. Sterling exchange firm at \$4.86 to \$4.87 for demand, and \$4.85 to \$4.86 for telegraphic transfer. Post office \$4.85 to \$4.87. Commercial bills \$4.81 to \$4.82. Bar silver 58. Mexican dollars 44 1/2. Government bonds 100 to 101. Consols for money 100 to 101.

Metal Markets.—Lead \$12.11 3d. New York, April 26.—Lead \$12.11 3d.

THE WEATHER.

Meteorological Office, Victoria, April 26—8 p. m. SYNOPSIS.

The pressure is increasing over the Pacific slope, and the storm area has moved eastward, and is now centered in Saskatchewan. Rain has fallen at Seattle, Tacoma, Havre, Calgary and Medicine Hat. The weather has been cloudy, cold and threatening in this district and in western Washington and Oregon, and in the Columbia river it has been fair and warmer. In the Northwest the weather is in general fair and except in Alberta temperatures have been high.

TEMPERATURE.	Min.	Max.
Victoria	42	61
New Westminster	38	54
Kamloops	35	58
Port Simpson	36	55
Dawson, Y. T.	32	42
Calgary, Alta.	38	44
Winnipeg, Man.	30	48
Portland, Ore.	40	60
San Francisco, Cal.	54	62

FORECASTS.—For 24 hours from 5 a. m. (Pacific time) Thursday:

Victoria and vicinity: Moderate to fresh southerly and westerly winds; mostly cloudy and threatening, with occasional showers, and stationary or higher temperature.

Lower Mainland: Westerly winds; chiefly cloudy and threatening, with occasional showers and stationary or higher temperature.

VICTORIA DAILY RECORD.—Report for 24 hours ending 5 p. m. Observations taken daily at 5 a. m., noon and 6 p. m.

WEDNESDAY, APRIL 26.	
Deg.	Deg.

11 a. m.	24 miles west	2
5 p. m.	20 miles west	2

Average state of weather—Fair. Rain—Trace.

Barometer at 5 a. m.—Corrected—30.04

Barometer at 5 p. m.—Corrected—30.00

WEEKLY WEATHER SYNOPSIS.—Victoria Meteorological Office.

Weather conditions on the 19th and 20th were unsettled over the province owing to the approach of an ocean disturbance on the northern coast, which moved down wards through British Columbia to the middle of the Strait of Juan de Fuca, and along the Straits, and heavy good rains in California and the adjacent states. At the same time a high pressure belt appeared over the Rocky Mountains, and this gradually moved northward and spread over the North Pacific slope and afforded phenomically fine weather in the province for the Easter season. No rain fell, and on each of four successive days a series of light showers of bright sunshine was recorded at Victoria. In this interval summer temperatures were reached at many stations west of the Rockies, on Monday evening a storm area developed on the Cassiar coast, and the pressure decreased throughout the province and the adjoining states, and rainy conditions appeared, the week closing on Tuesday with fresh to strong local winds and squalls, accompanied with rainfall, which at Port Simpson was 24 hours, reaching 1.26 inches in the 24 hours. There was also a marked fall in temperature at nearly all Western stations; on the same morning a thunderstorm occurred at Barkerville. In the afternoon there has been little precipitation, the weather has been chiefly fair, and temperatures at one time rose much above normal, though becoming cooler towards the close of the week. At intervals light frosts have occurred on the higher levels.

BOSTON'S BARBER REGULATIONS.

Board of Health Orders Sterilization of all that Barbers Use on Customers.

A special despatch from Boston, May 5, 1905, to the N. Y. Sun gives new regulations of the Boston Board of Health as to barbers. "Mugs" shaving brushes and razors shall be sterilized after each separate use thereof. A separate, clean towel shall be used for each person. Material to stop the flow of blood shall be used only in powdered form, and applied on a towel. Powder puffs are prohibited. Wherever Newbros' "Hemplice" is used for face or neck, there is no danger of infection, as it is antiseptic, and kills the dandruff germ. Sold by leading druggists. Sent 10c. in stamps for sample to The Hemplice Co., Detroit, Mich.

C. H. Brown & Co., 98 Government street, Special Agents.

TORONTO, ONT.

of the plateau districts, and on the 19th severe to killing frosts were reported in the states adjacent to the Gulf of Florida.

At Victoria—Sixty hours of bright sunshine were registered; the highest temperature was 71.0 on the 23rd; lowest 46.2 on the 20th; rain 0.10 inch.

At New Westminster—Highest temperature 78 on the 24th; lowest 40 on the 21st and 22nd; rain 0.60 inch.

At Kamloops—Highest temperature 82 on the 24th; lowest 40 on the 21st; no rain.

At Barkerville—Highest temperature 60 on the 23rd; lowest 28 on the 21st and 22nd; precipitation 0.70 inch.

At Port Simpson—Highest temperature 56 on the 19th and 22nd; lowest 38 on the 19th; rain 1.94 inches.

At Dawson—Highest temperature 52 on the 22nd, 24th and 25th; lowest 14 on the 20th; precipitation 0.20 inch.

THEY KNOW IT.

"Thousands of people throughout the country know that the ordinary remedies for piles—ointments, suppositories and applications—will not cure them. The best of them only bring passing relief."

Dr. Leonard's Hem-Roid is a tablet taken internally that removes the cause of Piles, hence the cure is permanent. Every package sold carries a guarantee with it. It is perfectly harmless to the most delicate constitution. A month's treatment in each package. Sold at \$1.00. At any drug store, or The Wilson-Eyle Co., Limited, Niagara Falls, Ont.

Gannett and wife, Miss Carmody, P. E. Wright.

ONE BOX OF DOAN'S KIDNEY PILLS CURED DROPSY.

Dropsy is not a disease in itself, as many people believe, but is an evidence of very severe kidney trouble. Dropsy is caused by waste particles oozing through the walls of the arteries when they are distended by unusual pressure, which can only be caused by obstructions in the kidneys. The symptoms of Dropsy are puffiness under the eyes, swelling of the feet and ankles, urine changed in character and appearance, smothering feeling from exertion or excitement. The only rational method of treating this disease is to reach the kidneys and restore them to a healthy condition.

The most successful remedy for this purpose is Doan's Kidney Pills. Read what Miss Agnes Creelman, Upper Smithville, N.S., says of them:—"I caught a cold, which settled in my kidneys, and turned to dropsy. My face, limbs, and feet became bloated, and if I pressed my finger on them it would make a white impression that would last fully a minute before the flesh regained its natural color. I was advised to try Doan's Kidney Pills, and found by their use that I was cured in a very short time. I have never had my trouble with it since."

Price 50 cents, per box, or 3 for \$1.25.

THE DOAN KIDNEY PILLS CO.

TORONTO, ONT.

SMELTER COMBINE.

Lead Plants at Trail, Nelson and Marysville in a Merger.

According to a Nelson despatch of the 26th inst., to a Spokane paper, it is reported that the three lead smelters at Trail, Nelson and Marysville will enter into a combination to control the Canadian lead market. Trail has a small refinery at present, and it is proposed to treble the capacity in order to treat the lead locally. Hitherto much of the refining has been done at the San Francisco refinery, the lead product going to supply that portion of the market in the Far East, which is divided between the Australian and the Canadian lead shippers. Without the amount of lead which is to be produced in the near future by the smelter at Marysville the supply has been heretofore much greater than the demand. But as the supply has practically been controlled by the Canadian smelting works at Trail it has been impossible to get the top prices for the Canadian product and ship the surplus to Great Britain, less the amount marketed in China by a pooling arrangement with the Australian shippers.

The Australian smelters, notably Broken Hill, have installed the Heberlein process, cheapening the production in Australia and at the same time cutting off the Cardiff smelter from its supply of lead fluxes. The Marysville smelter has also adopted the Heberlein roasting process, and if the Trail smelter enters the field it will have the additional backing afforded by its affiliation with the Canadian Pacific in the way of cheap sea carriage. One effect of the curtailment of the Australian fluxes has been the offering of much better rates by Cardiff to Kootenay lead producers these being stated to be \$6 a ton better than was given a year ago.

ODD FELLOWS CELEBRATE.

American Order Was Eighty-six Years Old Yesterday.

Today is the eighty-sixth birthday of the Independent Order of Odd Fellows, and the event will be celebrated by the 1,500,000 members of the order throughout the world. At most of the 11,000 lodges of this order some special ceremonies will be observed in honor of Thomas Wildey, the Baltimore blacksmith who founded the American order nearly a century ago.

Thomas Wildey, the Baltimore blacksmith who founded the American order nearly a century ago, is an offshoot of the great English Friendly Society, and was founded in the United States by Thomas Wildey, who with four comrades at Baltimore in 1819 founded the first Odd Fellows lodge in the New World. Wildey and John Welch had both been members of the English society, and when they came to the new country to make their homes they conceived the idea of founding the order on this side of the water. They published a call, and John Duncan, John Cheatham and Richard Rush-

worth responded April 13, 1819. They were members of the British order, which allowed any five members to organize a lodge where none existed, and on April 26, 1819, the first lodge of Odd Fellows in the United States came into existence.

The lodge they formed was called Washington Lodge, No. 1, and despite the strong sentiment against secret societies that swept over the United States at that time, the order grew and flourished, until five years later grand lodges were formed in Pennsylvania, New York and Massachusetts, and the first Grand Lodge of the United States convened in 1825, at which Mr. Wildey was elected grand sire. The order had a membership of only 500 at that time, but the jump from 500 to a membership of 20,000 in 1861, the year Wildey died, was an evidence of the popularity of the order and a testimonial to the broad lines on which the founder had built.

The local lodges will celebrate the occasion tomorrow night, when a social evening will be spent at the lodge rooms. Next Sunday they will march in a body to the Centennial Methodist church, where Rev. J. P. Westman will deliver a sermon suitable to the occasion.

WHOOPIING COUGH.

The quick relief afforded by Chamberlain's Cough Remedy in cases of whooping cough, makes it a favorite with the mothers of small children. It liquefies the tough mucus, making it easier to expectorate, keeps the cough loose and counteracts the tendency toward pneumonia. This remedy has been used in many epidemics of whooping cough and always with perfect success. There is no danger whatever from the disease when it is freely given. It contains nothing injurious and may be given as confidently to a baby as to an adult. For sale by all druggists.

Must Have Room.—In order to make room for another large consignment of Spring Goods, now under way, Campbell's Ladies' Outfitting Emporium, Fort Street, are offering the balance of their time stock of Spring Jackets at special reductions for a few days. The sale will be carried on regardless of cost.

A Grievance Remedied.—For many weary months the residents of Oak Bay avenue have been petitioning the city council, urging the necessity of better drainage facilities being provided. At last their wishes are to be complied with, a decision having been reached by the council to put in a box drain extending from the island avenue to Hulton avenue. It is estimated that the work will cost in the neighborhood of \$700. The long-awaited improvement is to be undertaken immediately.

The Gorge Park—Work is to be commenced at once on the task of putting the newly-acquired park site at the Gorge in shape for the accommodation of the public. A gang of men under the supervision of John Austin will clear up the underbrush, cut down the old trees, repair the fences and generally make the place presentable. With the street cars running to the Gorge this summer the need of a park at that point will be felt, and the council has acted wisely in securing this desirable piece of ground.

Tramway Sprinkling.—Although a request has gone forward from the city council to the tramway company, requesting that the car track area be sprinkled during dusty weather, a number of the aldermen are of the opinion that the company cannot be compelled to observe the particular clause in the bylaw which is sought to have carried into effect. That clause reads as follows: "The company shall cause the track and the street, within 18 inches on either side, to be sprinkled twice during the day at least, during the dry weather, on any day when sufficient rain has not fallen to prevent the raising of the dust during the passage of the cars." It is pointed out that the tramway company is not a consenting party to this, and, the obligation to sprinkle the tracks is binding only in the event of the company seeing the necessity for it.

Sealing Catch Will be Small

Season Ends In Few Days Off the Coast — Average Is Low One.

Queen City Brings News From Coast Fleet — Iyo Maru Coming.

Steamer Queen City, Capt. Townsend, returned from Cape Scott and way ports on the Vancouver Island coast yesterday, bringing news from many of the sealing schooners. From reports brought by the coasting steamer it would seem that the catch for this season off the coast will be the lowest on record. Fewer schooners were sent to hunt off the coast this year. Owing to the difference of the Indian hunters to accept the rate of wages offered by the sealers—the Indians holding out for six dollars a skin—but twelve vessels were sent, and of which were equipped with full crews of white hunters. Nine vessels were sent out by the company and there were three others operating independently.

The catch of the schooners will average less than 200 skins to the vessel, according to the reports received from the Island coast yesterday. There are but three sealing days in the spring season after today. The regulations governing pelagic sealing are to the effect that coast sealing shall be brought to a close by the 30th April. Then the schooners carrying Indian crews will return to port and the schooners which carry white hunters will set sail for the sealing grounds off the Copper Islands.

The sealing schooner Libbie, Capt. Heater, had 244 skins to the 23rd inst., the Allie L. Algar with Capt. G. Heater in command, had 244 skins yesterday—subsequent advice being received from Clayoquot of her arrival at that port. The Diana had 180 and the City of San Diego had 130. Their catches were shipped by the Queen City and the schooners will sail for the Copper Islands. Capt. Townsend reports that the news which have been given circulation concerning the broken canoes found near Nootka are not worthy of much consideration; they were, in the opinion of coast residents, broken remnants of canoes which drifted from village rancheries near where they were found.

The steamer brought a small complement of passengers, including Capt. Olsen from Neuchâtel; Mrs. Jorgenson and son from Cape Scott; Wm. Benson from Quatsino, and A. Forest and Mrs. Plaskett from Alberni. The steamer had a fair trip until Tuesday, when a strong southwest breeze was encountered. She will sail for the coast again on Monday.

JEANIE CHARTERED.

Will Carry Supplies to Mines at Ungah—Coals at Ladysmith.

The steamer Jeanie has been chartered by Capt. Omar J. Humphrey for a voyage to Ungah. The vessel sails next Saturday with a full cargo of supplies for the Apollo mine. Cargo coal will be taken on board at Ladysmith. On the return voyage Capt. Humphrey says the Jeanie will bring a cargo of ore for Tacoma.

ICE OUT OF BEHRING.

Winter Removes Seal From Northern Sea Earlier Than Usual.

A telegram which has been received by Capt. West of the steamer Corwin from Nome says the ice had gone out of Behring sea, and the season will open fully a month earlier than expected. The news created a lively movement among steamship men on Puget Sound, who will attempt to send vessels in two or three weeks earlier than the schedule.

CONCERNING RECORDS.

Ping Suey Carries Largest Freight Taken From Puget Sound.

The Tacoma Ledger in an editorial drawing attention to the fact that the steamer Ping Suey, of the China Mutual line, had broken all records for carrying cargo from any North Pacific port, she having cargo on board valued at \$1,014,034, according to her manifest. Over \$100,000 in excess of the cargo carried by the Minnesota, which previous made the high mark, pays some attention to the false claim of the Minnesota for the speed record across the Pacific. The Ledger says: The Ping Suey's cargo deserves to attract wide attention. Mr. Hill's mammoth freighter the Minnesota, is the most advertised vessel that ever crossed the Pacific. The Ping Suey has been plying between Tacoma and the Orient and Liverpool for fully five years and while her performances have not been heralded to the world by a shrewd advertiser like James J. Hill, she has been entitled to all sorts of glory for her truly remarkable record. In this connection the fact may be mentioned that the Minnesota, which is now loading at Smith's Cove, was announced from Seattle to have broken the speed record in her maiden crossing trip from Yokohama to Port Townsend, which she covered in a little under fourteen days. Such a statement answers an advertising purpose, no doubt, but the claim is ridiculous. The Empress liners running to Vancouver have been making eleven or twelve-day trips eastbound across the North Pacific for years, and there are several steamships in the Tacoma-Orient service which ordinarily make better time than was made by the Minnesota and never think of bragging about it.

THE ORIENTAL LINERS.

Pleiades Is Due Sunday From Yokohama—Iyo Maru En Route.

Steamer Pleiades, of the Boston Teakboat Company, is due from Yokohama and other ports of the Orient today Sunday. She has a heavy cargo for this port. The steamer Iyo Maru, of the Nippon Yusen Kaisha line, is following her. The Iyo Maru, which it was believed would have been impressed for transport service because of the heavy demand for steamers by the Japanese government, on account of the movement of Russian prisoners and the further augmentation of Oyama's invading armies, left Yokohama on Friday last. She is due at Victoria on May 5, with a fair cargo, of which 101 tons will be landed here. The steamer Kanagawa Maru, the other N. Y. K. liner with which the Japanese company is maintaining the service in which six vessels ran before the war, is to leave Hongkong for this port on May 17, the Russian Baltic squadron permitting. Four days after the arrival of the Iyo, the Empress of India is expected. She will sail from Yokohama tomorrow for this port and is due on May 9—making her scheduled time of twelve days, two days less than the alleged record so widely advertised for the Minnesota. Steamers Shavmut, from Manila, and Telemachus, from Liverpool via Oriental ports, are due about May 16. The steamer Aorangi, of the Canadian-Australian line, will sail from the ocean dock tomorrow evening for Australia via Honolulu and Suva. The Manuka, which is bringing a very large complement of passengers, left Suva on Tuesday for this port, and is due here on May 10.

MARINE NOTES.

Steamer City of Puebla is due from San Francisco tonight, when the steamer Senator will sail for the Golden Gate. The German steamer Sensostris, of

BEER

This is the season for Beer and you should drink the best. There is none quite equal to Lemp's Extra Pale the choicest product of the brewer's art. At its home in St. Louis more Lemp's is used than all other Beers combined; this is sufficient evidence of its quality. No other Beer, however much it is advertised, can compare with Lemp's "Extra Pale." None but first-class places handle the Lemp's. The price is a trifle more than some imported Beers but the quality is far superior. Therefore, see that you get the Lemp's "Extra Pale." Imported and guaranteed by us.

NERVOUS, SICK HEADACHE

Mr. O. Barber, Simcoe, Ont., writes: "I was troubled for a long time with headaches, which would come on about once a week with such violence that I could not eat or do any work. I tried headache powders and quick cures, which did no good. About eight months ago I took six bottles of Dr. Chase's Nerve Food, and I have not been troubled with headache since."

It is a remarkable fact that, with lower premium rates than those charged by American companies, the Mutual Life of Canada has paid better results on its matured policies. A comparison of actual results of similar policies at maturity of endowment term furnishes indisputable evidence of this fact and is the most practical test that can be applied to any company. It pays to insure in the Mutual Life of Canada. R. L. Drury manager, 34 Broad street.
